

Independence Public Library Questions and Answers

What will the new facility offer for adults in the area?

The new library will offer something for everyone! It will be an inviting third place - a place other than home or work where people can go to relax and feel part of the community. It will provide a place for adults to read, visit over coffee, and meet with friends and family. There will be space for library programs and meetings with small and large groups. It will be a great community center for adults and people of all ages!
