

Independence Public Library Questions and Answers

Why do we need a new public library?

The space and accessibility limitations in the current library impose many problems in providing a dynamic, community-centered library. The following cannot be provided to any great extent currently, but will be possible in the new facility:

Read and Relax

Tutor, do homework, take a test

Provide a space for teens

Meet other groups/individuals at the library

Access additional computers

Attend programs at the library

Browse the complete collection of materials

Be inspired to learn and use your imagination.

The Iowa Falls Public Library
reading area and children's area.
