

# Independence Public Library Questions and Answers

## How will the community/program room be used?

The community room, or program room, at the new library is a very exciting and essential part of the facility. Activities can take place in this area without distractions and noise disturbing those using the main part of the library. The room will be used for library programs/events such as summer reading programs, author visits, concerts, book sales, etc. Most library programs and events are currently held off-site. It will also be available for community groups and organizations as a place to meet. Book groups, arts/crafts clubs, recreational and social organizations, and others will be able to utilize the space.
