

Thoughts on the new Independence Public Library...

"I'm thrilled about a larger children's section where kids have room to use the puppets, read books, play, and learn. I can't wait to have all the books on one level! When we take books upstairs because there isn't room to keep them downstairs I feel like we are burying them. One other great benefit will be a staff work area. We won't have to be in the way and we will be able to give customers the space and attention they deserve."
